SR. SOFTWARE ENGINEER / SQL DEVELOPER / REPORT DEVELOPER

Experienced and results-driven software engineer with over 22 years in IT, including 16 years in Healthcare Information Technology and 1 year in distribution ERP. Proven expertise in data ETL, reporting, and software solutions for data management. Contributed to achieving CCHIT 2011-2018 Certification for NextGen.

CORE COMPETENCIES

- 10+ years of experience with MS SQL Server development, T-SQL, stored procedures, triggers, and data analysis
- 5+ years in SSRS and 2 years in SSIS
- 7+ years with SAP Business Objects - Crystal Reports
- Proficient in Windows Forms in .NET
- Experienced in Agile development practices and Scrum methodology
- Highly self-motivated with strong problem-solving skills and a professional, collaborative attitude

TECHNICAL SKILLS

- **Databases:** SQL Server, MySQL, ArcSDE (Spatial Database Engine), Oracle (< 2007)
- **Languages:** T-SQL, VB.net, C#, Python, Java, Asp.net, PL-SQL
- **Software/IDE:** SSMS, SSRS, SSIS, Tableau, MS Power BI, SQL Profiler, SAP Crystal Reports, VS Code, MS Visual Studio, MS Data Tools, BitBucket/SourceTree, MS Visual SourceSafe, FreshService, Perforce, Atlassian JIRA/Confluence, TeamCity/Octopus, CR4E (Crystal Report for Eclipse), Epicor P21
- **AI:** Anthropic Claude

EXPERIENCE

Pearlman Group - Suwanee, GA

Business System Developer | Mar 2024 – Present

- Developed a web-based Data Reporting Tool leveraging Claude Code and the Claude API, enabling developers to query across databases, explore schemas, optimize performance, and perform data analysis
- Created and maintained SQL stored procedures and SSRS reports (including user roles and report subscriptions management on report server) for supply chain management and financial analysis
- Designed and maintained Tableau dashboards for inventory KPIs (inventory adjustments, OTIF, cycle counts, RMA)
- Developed automated scheduled tasks using MS Power Automate, Pyson, Powershell, and Windows Task manager
- Created SSIS packages to automate daily file transfer from external reporting platform BillTrust.com to network folder for accounting needs
- Built desktop solution to enable clients to analyze/process/clean item data prior to ETL to Epicor P21
- Maintaining Epicor P21 canned reports by Crystal Reports and P21 datastreams
- Used QODBC POS, QODBC QRemote, and Access Database to help extracting data from clients' POS and Quickbooks systems for final data migration

NEXTGEN HEALTHCARE INFORMATION SYSTEM (HQM) - Atlanta, GA

Senior Software Engineer | Jun 2016 - Dec 2023

- Led development of SQL stored procedures and SSRS reports supporting CMS HQM programs
- Conducted in-depth data analysis and troubleshooting across multiple environments (Dev/QA/UAT/Production servers)
- Created and maintained Stored procedures for ETL process from source EHR databases to HQM data warehouse
- Built internal desktop tools to automate SQL code generation and mass stored procedure updates
- Developed (sole developer) a Desktop Tool for internal business and data analysts using C# to improve efficiency of interpreting findings
- Developed tools in C# for analysts to streamline data interpretation
- Led multiple POCs to enhance schema design, query performance, and Power BI reporting

NEXTGEN HEALTHCARE INFORMATION SYSTEM (EPM) - Atlanta, GA

SQL Developer | Apr 2007 – Jun 2016

- Designed financial and business performance reports using Crystal Reports
- Built web reporting applications using VB.NET, ASP.NET, and Crystal Reports Viewer
- Developed EDI solutions in C# to streamline claims processing and monitored data quality
- Delivered ad-hoc reports to support executive decision-making

GEORGIA DEPARTMENT OF TRANSPORTATION - Atlanta, GA

System Administrator II | Dec 2001 – Apr 2007

- Help building **TREX** (\$3.5 million state & federal project) to provide traffic data to transportation officials in order to improve state traffic operations
- Maintained Rural Management Information System (**RMIS**) and Financial and Accounting System (**FAS**)
- Developed a **StateAid application for the DOT State Aid Office** using VB and Active Report
- Contributed numerous internal services and trainings
 - Developed a Metadata Explorer web application (JS, Java, JSP, HTML)
 - Created web/desktop reporting applications (Crystal Reports, VB, ColdFusion)
 - Provided ad-hoc reporting for internal clients (Oracle Discoverer)
 - Generated 200+ reports for statewide offices/users (Crystal Reports)
 - Performed data analysis and performance optimization on Oracle 9i, SQL Server, and Access databases (SQLPlus, DBvisualizer, SQL Query Analyzer)
 - Provided spatial and database analysis with Oracle 9i
 - Conducted in-house Crystal Reports training for internal users

EDUCATION AND AWARDS

B.S. in Computer Science (*Magna Cum Laude*)

Kennesaw State University (Southern Polytechnic State University) - Marietta, GA | Dec 2001

- **NextGen Top Performer Gold Star Award** - January 2013, August 2011, November 2010, May 2008
NextGen Healthcare Information System, Atlanta, GA
- **Special Project Award:** ONC CCHIT 2011/2012 (Office of the National Coordinator for Health and Information Technology) Certification - *NextGen Healthcare Information System, Atlanta, GA*
- **GDOT Service Award** - December 2006
State of Georgia, Atlanta, GA
